Energold Drilling Corp.

Notes to the Consolidated Financial Statements

September 30, 2009

Canadian Dollars

Unaudited

1. Basis of Presentation

These unaudited interim consolidated financial statements have been prepared by the Company in accordance with Canadian generally accepted accounting principles "GAAP" and follow the same accounting policies and methods of their application as the most recent audited annual consolidated financial statements, except as described in Note 2. The accompanying unaudited interim consolidated financial statements should be read in conjunction with the Company's audited annual consolidated financial statements as at December 31, 2008, as they do not contain all disclosures required by GAAP for annual financial statements. Certain comparative figures have been reclassified to conform to the presentation adopted for the current period.

2. Changes in accounting policies

Adoption of new accounting policies

Effective January 1, 2009, the Company adopted the new Canadian Institute of Chartered Accountants ("CICA") Handbook Section 3064, *Goodwill and Intangible Assets*. This section replaces CICA Handbook Section 3062, *Goodwill and Intangible Assets*, and establishes revised standards for the recognition, measurement, presentation and disclosure of goodwill and intangible assets. The new standard also provides guidance for the treatment of various pre-production and start-up costs and requires that these costs be expensed as incurred, with the concurrent withdrawal of CICA Emerging Issues Committee Abstract 27. The adoption of Section 3064 did not result in a material impact on the Company's consolidated financial statements.

In March 2009, the CICA issued EIC-174, "Mining Exploration Costs." The EIC provides guidance on the accounting and the impairment review of exploration costs. This standard is effective for our fiscal year beginning January 1, 2009. The adoption of EIC-174 did not result in a material impact on the Company's consolidated financial statements.

In June 2009, the CICA amended Handbook Section 3862 – *Financial Instruments – Disclosures* to include additional disclosure requirements about fair value measurements of financial instruments and to enhance liquidity risk disclosure requirements for publicly accountable enterprises. The amendments are applicable for the Company's annual consolidated financial statements for its fiscal year ending December 31, 2009.

Recent accounting pronouncements issued but not yet implemented

In January 2009, the CICA issued Sections 1582 – *Business Combinations*, 1601 – *Consolidated Financial Statements* and 1602 – *Non-controlling Interests* which replace CICA Sections 1581 – *Business Combinations* and 1600 – *Consolidated Financial Statements*. Section 1582 establishes standards for the accounting for business combinations that is equivalent to the business combination accounting standard under International Financial Reporting Standards ("IFRS"). Section 1582 is applicable for the Company's business combinations with acquisition dates on or after January 1, 2011. Early adoption of this Section is permitted. Section 1601 together with Section 1602 establishes standards for the preparation of consolidated financial statements. Section 1601 is applicable for the Company's interim and annual consolidated financial statements for its fiscal year beginning January 1, 2011. Early adoption of this Section is permitted. If the Company chooses to early adopt any one of these Sections, the other two Sections must also be adopted at the same time.

Energold Drilling Corp.

Notes to the Consolidated Financial Statements September 30, 2009

Canadian Dollars
Unaudited

3. Restricted cash

Restricted cash represents funds held at:

	September 30 2009	December 31 2008
Funds held in trust pending investment in third party initial public offering – (Note 6d)	\$ 2,000,000	\$ 2,000,000
Funds held in trust	32,135	-
Peruvian government tax withholdings	74,346	168,425
	\$ 2,106,481	\$ 2,168,425

4. Inventories

The following table details the change in inventories during the nine months ended September 30:

	2009	2008
Opening inventories	\$ 20,312,588	\$ 8,713,404
Purchases	6,882,639	14,819,008
Inventories expensed during the period	(5,251,574)	(6,704,125)
Closing inventories	\$ 21,943,653	\$ 16,828,287

5. Investment in IMPACT Silver Corp. (IMPACT)

At September 30, 2009 the Company owned 6,650,001 (December 31, 2008 - 6,650,001) shares of IMPACT Silver Corp. The Company's interest in IMPACT decreased from 13.85% to 13.77% during the nine months ended September 30, 2009. The Company, through mutual management at the executive level and its shareholding and directorship in IMPACT, exercises significant influence over that company. As a result, the investment in IMPACT is accounted for using the equity method. The dilution gain represents the fair value of the Company's share of the consideration paid by the new investors in IMPACT in excess of the carrying value of the Company's investment in IMPACT. Equity has been reduced by the elimination of 100% of the net profits realized on drilling services provided to IMPACT. Details of the investment in IMPACT are as follows:

Balance – December 31, 2007	\$ 3,367,340
Equity income for the period	91,728
Reversal of profits on intercompany drilling revenues	(201,631)
Dilution gain	41,652
Purchase of shares	43,543
Balance – December 31, 2008	\$ 3,342,632
Equity income for the period	143,923
Dilution gain	45,918
Balance – September 30, 2009	\$ 3,532,473

Based upon period end TSX.V closing market prices of \$0.89 and \$0.43 per share, this investment has a quoted market value of \$5,918,501 at September 30, 2009 and \$2,859,500 at December 31, 2008.

6. Resource properties

a) Details are as follows:

i) At September 30, 2009:

	Acquisition Costs (\$)	Deferred Exploration (net of recoveries) (\$)	Sale of Resource Properties (\$)	Accumulated Write-off (\$)	Sept 30 2009 (\$)
Dominican Republic					
Concessions					
Actividades Mineras, S.A. ("AMSA")	142,640	181,713	-	-	324,353
Casa Real, S.A. ("Casa")	302,694	621,675	-	-	924,369
Energold Drilling Dominicana, S.A. ("EDD")	1,265,275	2,277,341	(684,074)	(2,743,801)	114,741
	1,710,609	3,080,729	(684,074)	(2,743,801)	1,363,463

ii) At December 31, 2008:

	Acquisition Costs (\$)	Deferred Exploration (net of recoveries) (\$)	Sale of Resource Properties (\$)	Accumulated Write-off (\$)	December 31 2008 (\$)
Dominican Republic					
Concessions					
AMSA	142,640	176,826	-	-	319,466
Casa	302,694	612,821	-	-	915,515
EDD	1,265,275	2,365,553	(684,074)	(2,743,801)	202,953
	1,710,609	3,155,200	(684,074)	(2,743,801)	1,437,934

b) AMSA

By agreement dated July 25, 1996 and subsequently amended, the Company acquired the right from MJD Agency Ltd. to purchase a 40% interest in the Dominican Republic company, AMSA for an exploration work commitment of \$300,000 which has been completed. The Company has the right to purchase another 20% for an additional \$300,000 work commitment to be completed by July 25, 2011. All costs incurred to date with regard to the purchase of AMSA have been recorded as resource property costs. This agreement is subject to the 1% net smelter royalty.

c) Option agreements – Dominican Republic

In May 2006, the Company entered into an option agreement with a third party, giving that party the right to acquire up to 100% interest in any nickel laterite deposits within four mineral concessions, Elsa 1 (Casa), Loma Bombara (AMSA), Loma Cambronal (AMSA) and La Parcela (EDD). The third party may earn an initial 75% interest by completing a US\$900,000 work program and making payments of US\$50,000 per year for three years (US\$100,000 paid). The third party has the right to purchase the Company's remaining 25% interest for cash consideration of US\$500,000, thus converting its interest into a 2% smelter return which can be halved anytime in consideration of an amount of US\$1,000,000. Payments may be made in cash or in shares. During the year ended December 31, 2008 the third party was notified that based on the receipt and review of a work progress report, it had not complied with the terms of the agreement and that the agreement was no longer effective.

In November 2007, the Company entered into an option agreement with a third party on the Majagual (EDD) concession in the Dominican Republic. The third party paid \$25,000 and issued 100,000 shares subsequent to signing the agreement. A further \$75,000 was paid and 100,000 shares were issued on the first anniversary. The third party is required to pay \$50,000 and issue 100,000 shares on the second through fourth anniversaries. In addition, the third party must spend \$500,000 on the property over a period of four years.

6. Resource properties – continued

d) Purchase agreement – Dominican Republic

The Company entered into a binding letter of agreement, effective June 29, 2007 and amended December 21, 2007 and June 30, 2008, with a Canadian controlled private corporation (“CCPC”) to transfer all of its rights and obligations in the La Parcela Concession, located in the Dominican Republic, in exchange for \$2.0 million Canadian. The Company in turn agreed to invest in an initial public offering (“IPO”) to be undertaken by that CCPC. The \$2.0 million has been received and recorded against the carrying cost of the property with the remaining amount of \$1,315,926 recorded as gain on sale of assets in 2007. The funds have been placed in trust for the benefit of the Company pending completion of the IPO. The Company has entered into an arrangement with the CCPC to further extend the trust arrangement pending an improvement in overall equity market conditions or alternative arrangements being agreed between the parties.

Balance – September 30, 2009	\$	328,470

e) Stock options

The Company has established a stock option plan whereby the board of directors may, from time to time, grant options to directors, officers, employees or consultants. Under the stock option plan 4,591,070 options have been authorized for issuance, of which 698,500 have been allocated at September 30, 2009. Options granted must be exercised no later than five years from date of grant or such lesser period as determined by the Company's board of directors. The exercise price of an option is not less than the closing price on the Exchange on the last trading day preceding the grant. The directors, subject to the policies of the TSX Venture Exchange, may determine and impose terms upon how each grant of options shall become vested.

A summary of the Company's stock option plan at September 30, 2009 and the changes for the periods ended on these dates is as follows:

	Number	Weighted Average Exercise Price
At December 31, 2007	735,000	\$1.20

8. Share capital - continued

The following table summarizes information about the stock options outstanding at September 30, 2009:

Exercise Price Per Share	Expiry Date	Options Outstanding	Options Exercisable
\$1.20	May 3, 2010	698,500	698,500

The fair value of stock options used to calculate compensation for employees and consultants is estimated using the Black-Scholes Option Pricing Model.

The total fair value of stock-based compensation expense on stock options granted to employees and consultants of the Company for the nine months ended September 30, 2009 is \$nil (September 30, 2008 - \$nil).

Option pricing models require the input of highly subjective assumptions including the expected price volatility. Changes in the subjective input assumptions can materially affect the fair value estimate, and therefore the existing models do not necessarily provide a reliable single measure of the fair value of the Company's stock options.

9. Related party transactions

Related party transactions are recorded at the exchange amount which is the amount of consideration paid or received as agreed by the parties. Related party transactions are as follows:

- During the nine months ended September 30, 2009, the Company had an employment contract with one director and officer for fees of \$25,000 per month. During the nine months ended September 30, 2009, fees, salary and cash bonus in the amount of \$362,500 (September 30, 2008 - \$302,500) were accrued or paid to this director and officer. In addition fees of \$102,907 (September 30, 2008 - \$105,563) were paid to another officer of the Company. Salary of \$132,623 (September 30, 2008 - \$97,500) was accrued or paid to individuals related to a director. During the nine months ended September 30, 2009, the Company paid directors fees in the amount of \$163,333 and accrued directors' fees of \$23,350.
- During the nine months ended September 30, 2009, legal fees in the amount of \$110,220 (September 30, 2008 - \$343,450) were accrued or paid to a firm related to a director.
- During the nine months ended September 30, 2009, fees in the amount of \$1,733,781 (September 30, 2008 - \$1,660,456) were charged to IMPACT for contract drilling services performed in Mexico. At September 30, 2009, \$385,743 (December 31, 2008 - \$773,379) was due from IMPACT for contract drilling, exploration and administrative services provided by the Company.

10. Commitments

- The Company has signed a lease for office premises which commenced June 1, 2007 and ends May 31, 2010. Lease obligations, net of operating costs, are \$112,185 per year during this period.
 - In May 2008, the Company signed a lease for warehouse premises which commenced August 1, 2008 and ends July 31, 2011. Lease obligations, net of operating costs, are \$43,009 per year for the first year, \$44,058 per year for the second year, and \$46,156 per year for the third year.
 - In July 2008, the Company signed a lease for office premises which commenced July 15, 2008 and ends May 31, 2010. Lease obligations, net of operating costs, are \$130,200 per year during this period.

12. Capital management

The Company's objectives when managing capital are to safeguard its ability to continue as a going concern, to provide an adequate return to shareholders, to meet external capital requirements on credit facilities and to support any growth plans.

In the management of its capital, the Company includes its cash and cash equivalent balances. The Company monitors capital based on the debt to debt-plus-equity ratio. Debt is total debt shown on the balance sheet, less cash and cash equivalents. Debt-plus-equity is calculated as debt shown on the balance sheet, plus total shareholders' equity which includes accumulated other comprehensive income (loss), share capital, contributed surplus and retained earnings. At September 30, 2009 the Company had no debt.

The Company's policy is to keep its debt to debt-plus-equity ratio at a manageable level consistent with the current business cycle and the business opportunities outlook foreseen by the Company. As a general guideline, the Company's policy will be to keep its debt to debt-plus-equity ratio to a minimal level, except in unusual circumstances such as a major acquisition. Currently the Company has no debt and is in full compliance with its capital risk management policies. The Company's Board of Director's approves management's annual capital expenditures plans and reviews and approves any material debt borrowing plans proposed by the Company's management.

To effectively manage the entity's capital requirements, the Company has in place a planning and budgeting process to help determine the funds required to ensure the Company has the appropriate liquidity to meet its operating and growth objectives. The Company ensures that there are sufficient cash and cash equivalents to meet its short-term business requirements, taking into account its anticipated cash flows from operations and its holdings of cash and cash equivalents.

13. Financial instruments

Financial assets and liabilities

The Company's financial instruments consist of cash and cash equivalents, restricted cash, accounts receivable, short-term investments and accounts payable and accrued liabilities. For cash and cash equivalents, restricted cash, accounts receivable, and accounts payable and accrued liabilities, carrying value is considered to be fair value due to the short-term nature of these instruments. The fair value of short-term investments represents the market value of quoted investments.

Financial instrument risk exposure

The Company's financial instruments are exposed to a number of financial and market risks including credit, liquidity, currency and interest rate risks. The Company may, or may not, establish from time to time active policies to manage these risks. The Company does not currently have in place any active hedging or derivative trading policies to manage these risks since the Company's management does not believe that the current size, scale and pattern of cash flow of its operations would warrant such hedging activities.

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. Financial instruments that potentially subject the Company to credit risk include cash and cash equivalents, restricted cash, accounts receivable and short-term investments. The Company deposits its cash and cash equivalents with high credit quality financial institutions as determined by ratings agencies, with the majority deposited with a Canadian Tier 1 Bank. The Company provides credit to its customers in the normal course of its operations. The Company diversifies its credit risk by dealing with a large number of customers in various countries.

The Company's maximum exposure to credit risk at the reporting date is the carrying value of its cash and cash equivalents, restricted cash, accounts receivable and short-term investments.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its obligations as they fall due. The Company manages liquidity by maintaining cash and cash equivalent balances available to meet its anticipated operational needs. The Company has not been required to establish committed credit facilities but will do so as necessary. Liquidity requirements are managed based on expected cash flow to ensure that there is adequate capital to meet short-term and long-term obligations. The Company has in place a planning and budgeting process to help determine the funds required to support the Company's normal operating requirements on an ongoing basis and its growth plans. At September 30, 2009 the Company's accounts payable and accrued liabilities were \$3.2 million, all of which fall due for payment within twelve months of the balance sheet date. The Company has minimal long-term commitments (Note 10).

Currency risk

The Company operates on an international basis on five continents and therefore, currency risk exposures arise from transactions denominated in foreign currencies. The majority of its international sales contracts are denominated in U.S. dollars. Thus its currency risk arises primarily with respect to the U.S. dollar. However, the Company also incurs operating costs in local currencies in various countries in which it carries on active business operations. The Company has elected not to actively manage our currency risk at this time.

At September 30, 2009 the Company is exposed to currency risk through cash and cash equivalents, accounts receivable, and accounts payable and accrued liabilities held in U.S. dollars, Mexican pesos and Brazilian reais. Based on these foreign currency exposures at September 30, 2009, a 5% depreciation or appreciation of all the above currencies against the Canadian dollar would result in an approximate \$0.6 million decrease or increase in the Company's net income.

Interest rate risk

Interest rate risk is the risk that the fair values and future cash flows of the Company will fluctuate because of changes in market interest rates. The Company is exposed to interest rate risk on its cash and cash equivalents. The Company did not have any borrowings outstanding at September 30, 2009.
